Dear Dr. Henny,

5978 '00 MAY -9 P2:00

The moral progress of a nation can be assessed by the way its animals are treated. I strongly urge the FDA to allow non-dairy beverages to be labeled as 'milk' and require that milk from cows be clearly labeled as 'cows milk'. It's high time the dairy industry monopoly ends! Cruel farming practices are outlawed in many other developed nations, it's time the US came up to speed! WE are the STEWARDS of the animals on this Mother Earth..it's highly overdue to END this extreme exploitation & suffering they must endure and give them the respect they deserve! In these enlightened times, I'm sure humane ways can be found. Animals have as much protection in a court of law as a piece of furniture..They need LEGAL protection!

Your assistance in this most urgent matter would be much appreciated! What we do now is so important to the legacy of future generations!

Thank-you,

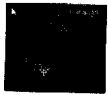

Lydia
